

Welcome to the SchoolSpeak portal for Carden Academy!

(Please note we are no longer using Edline and that login will no longer work.)

SchoolSpeak is an "Intranet" designed to serve our school Community. You will receive information from the school and your child's classroom through SchoolSpeak. This includes announcements, teacher messages, newsletters, forms, calendar, lunch menu and your child's report cards and grades.

SchoolSpeak accounts have been created for both parents. If only one email was available, both user name and password are sent to the same email. You can change your email, address, contact details etc. anytime by logging into SchoolSpeak and editing your profile. In case you plan to use only one account, please let SchoolSpeak administrator know which login to disable by using the form in the contact page.

Parents can edit their child's profile.

1. Login in using your assigned Login Name and Password.
2. Read Terms and Conditions and Privacy Policy and accept.
3. Click on Profile (upper Right corner of webpage)
4. Check if your profile is correct.

Please make sure all your children attending the school are listed under "associated with"

If your Profile is not correct, please click on Contact at the top center of the webpage and email the site administrator all corrections required.

5. Click on Change Password (upper right corner of webpage)
6. Enter your Assigned Password (from the Welcome email) in the Old Password field.
7. Enter your desired New Password in the New Password field.
8. Verify the New Password by typing the New Password in the Re-enter New Password field.
9. Click on Change

******DO NOT share your Login/User Name and Password with your children.** If your child logs in as the parent, the student will be able to "sign" for you, without your knowledge.

It is highly recommended that you DO NOT share your Login Information with anyone.

If you have any questions or need help, please send a message through the contact link.

Thank you
Carden Academy
