

Computer Science for youth!

JAN 2017 AFTER SCHOOL

Code your games with Scratch

Learn how to create your own games using Scratch Programming language! Learn the basics of game design and features necessary to make a game fun and interactive: controls, scores, multiple levels, and user interface. Students will also learn how to share games online, to provide feedback to peers in order to build online citizenship skills

Tuesday 3:45-4:45pm
1/17 - 4/25 (14 sessions)

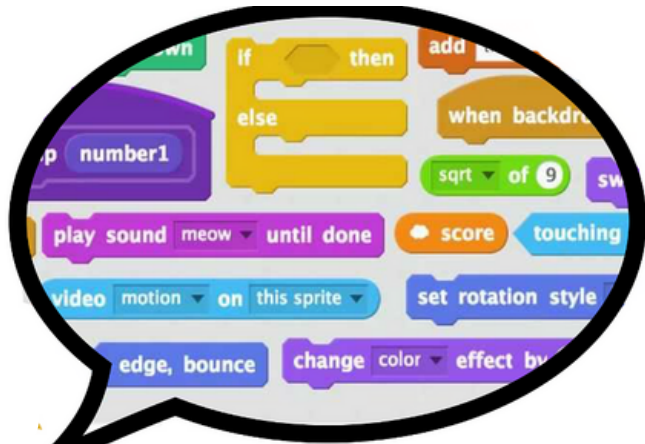

Grades: 3rd to 5th

\$299

Carden Academy
